AC and DC Power Supply System

Data Specifications

Engineering and Manufacturing for the Renewable World

www.patriotsolargroup.com

Patriot Solar Group (PSG) is a manufacturer and distributor of solar related products. We are committed to providing the highest quality products and service in the industry. Our dedicated sales, engineering, and operations staff keeps the customer and the environment at the forefront of their minds while creating a customized solution to fit your renewable needs. PSG will work hand in hand with you from the conception of the project until completion. If you are in the market for a renewable solution and want more than "just a supplier" look to PSG for your manufacturing and engineering needs.

This power box is suitable for fieldwork, military needs and remote areas where there is a lack of electricity. It is ideal when there is a demand for power in the field. Our units are able to provide AC and DC electric power for items such as: computers, radio communications and small appliances.

- ▶ Great for supplying temporary power on a construction site
- ▶ Extremely compact for convenient portability
- ▶ Excellent for outdoor events
- ▶ Portable and movable solar power supply box (solar power station) is used for fieldwork without electric supply, such as sea work, army camping and exploration
- ▶ Can deliver up 950 watt hours of electricity to run small appliances in a weekend cabin or during a power failure
- ▶ The system is a small AC and DC power supply system which is designed for the farmers, herdsman, outdoor camping, tourism etc
- ▶ Easy to operate and convenient to carry
- ▶ The controller, inverter and battery are all stored in the aluminium control box

Usage:

- ▶ Camping
- ▶ Disaster recovery situations
- ▶ Charging station for computers & mobile phones
- ▶ Portable computer can work for 5 - 6 hours by this power
- ▶ When you need light in night time, you can turn on the DC switch and insert the plug of light wire. It can supply the light power for 160 to 180 hours.
